**Christchurch (/v/GreatAwakening/3114396)** (GreatAwakening (/v/GreatAwakening))

submitted 3 days ago by MolochHunter M

David Anthony Ruck born Conneticut, raised in NZ

alleges he is a CIA agent who was ordered by Clinton, Podesta, higher ups

bit light on details in ths snippet - but here it is

and here's a more detailed '1000 points of light' whistleblow video where he talks about the new world order and the level of sophistication MK ultra has gotten to now, of which he was allegedly an operant

edit

ok so now ive had a look at the 12 minute 1000 points of light vid - he's pretty redpilled - but he seems to slip up. He says 'the mosque shooter was APPARENTLY Australian'

How the fuck would he not know if he supposedly set up the false flag ?

hmmm... if ruck shows being red-pilled back in october, why should he organize the shooting in march? makes no sense to me.

He did say that the 'good guys' used the 1000 points of light to activate him every once in a while. And dropped little seeds when they did. Maybe this is evidence of that?

The more I look into this shooting, the more I'm convinced that the whole scene was choreographed and acted out, and nobody was killed at all.

(Not the disappearing clips, that's a result of poor frame rate and a slight fish eye lens effect)

From what I could gather, it was organized long ago. Perhaps he was the original intended gunman?

This is his most recent FB page, his prior one was removed by FB / DS the same day he sent out the above tweets.

<https://www.facebook.com/profile.php?id=100011331190796> (<https://www.facebook.com/profile.php?id=100011331190796>)

ETA: On his Facebook page there are pics of him with semi automatic rifles.... at the same shop (brand anyway) that the shooter allegedly bought a lot of his guns from (Gun City LTD).

A friend DM'd me earlier and reminded me that Methven (where training by the cops was taking place) was a frequently-visited locale by this guy – judging by his photos.

It's bullshit. He wants you to chase down the rabbit hole of "yeah, we killed 50 people, and Obama told me to." When Obama hasn't been POTUS in 2+ years.

He doesn't want you to go down the rabbit hole of "nobody was shot, it was a staged event". There are multiple videos deconstructing it as a false flag, videos showing the actors in bloodstained outfits walking around like its a rehearsals ... nobody died in that FF.

Edit: "he" being the guy that made the video, not the OP.

People can die in a FF. When you say no one died, that means it's a hoax. I'm leaning towards the conclusion that it's a hoax also.

I watched a video with the gunman shooting clips and the bullet casings disappearing in mid-air.

I watched a video with the victims walking around a room like it's a dress rehearsal, where some were laying on the ground in a pool of blood then sitting up, other women talking casually while others laying on ground, and still others with bloodied outfits walking around like nothing happened.

I read/watched an article and commentary on the video explaining over 20+ red flag markers showing how the actual video was a hoax, things like the shooter steps out of vehicle with gun and people in street not being alarmed ... lack of continuity, misplaced clips, a guy supposedly dead but kept moving around ...

Yes, people can die in a FF. But not this one.

If it were actual shootings, actual people getting killed, the government would want everyone to watch it. The only reason they're trying to reel it back in is because of the inconsistencies.

Finding 50 dead bodies is not difficult for them, assuming there were any. I imagine the whole town was on lockdown due to the drill going on conveniently. We have dummies and someone filed the paperwork of '49 casualties.' Which was tossed at the reporters.

As far as OP goes, I know the story is bullshit because referring to the 1000 points of light is meant to catch OUR attention specifically.

Just because Obama hasn't been POTUS for 2+ years doesn't mean Obama wasn't involved. He's been on a world tour ever since Trump took over. I wouldn't put anything past him.

Interesting. One theory I have read is all the writing on the guns was to hide they weren't real.....

He does name Podesta as one of those who gave the order, who as we know was in NZ 5 days before the FF happened, at which time he named NZ as a "juicy target".

not yet.

where are his specifics. How exactly did he 'help out' ?

Is this just an MK ultra subject crying for attention?

as mentioned, he says he helped, but then in his other video he seems unfamiliar with Brenton Tarrant

But as another user pointed out, he tweeted some really prescient shit last year when the deep state did a hit job on some other new zealander

Plausible deniability if he is degrees removed from the shooter. Means you have to dig far further to prove links.
